Special Dietary Needs and Meal Accommodation Procedure

Purpose

WHLIS is committed to ensuring that students with disabilities and special dietary needs have equal access to school meal programs. WHLIS will provide reasonable meal modifications, at no additional cost to the student, in accordance with federal and state requirements and guidance from the USDA and Washington State Office of Superintendent of Public Instruction (OSPI).

Definition

A disability is a physical or mental impairment that substantially limits one or more major life activities or bodily functions. This may include, but is not limited to, food allergies, digestive disorders, metabolic diseases, and other medical conditions requiring dietary modifications. Personal food preferences, religious preferences, lifestyle diets, or elective dietary choices are not considered disabilities requiring meal accommodations under USDA regulations.

Requesting a Meal Accommodation

To request a meal modification, a parent/guardian or eligible student must submit written documentation to the Nutrition Services Department.

The request must include:

1. The food(s) to be omitted or avoided.
2. How ingestion of the food impacts the student.
3. The food(s) to be substituted or modified.
4. Signature of a State-recognized medical authority or licensed health care professional authorized to write medical prescriptions in Washington State.

Authorized medical professionals include:

- Medical Doctor (MD)
- Doctor of Osteopathy (DO)
- Advanced Registered Nurse Practitioner (ARNP)
- Physician Assistant (PA) with prescriptive authority
- Naturopathic Physician

- Registered Dietitian (where permitted under applicable Child Nutrition Program requirements)
